

# PRISONERZ

prison paper v0.8

last updated: April 10, 2022

**Prisonerz** is a gamified NFT experience, where the decisions you make result in unique character rarity, outcomes & status throughout the Prisørnverse.

---

## INTRO

Welcome to Prisonerz, a dynamic NFT project, where your choices matter, and where it's never too late to change! What you do and who you become rests solely on your shoulders, so your decisions outweigh the randomness of your initial mint. Will you choose the safe route and obey the Warden's Wolves? Or will you rebel, plan your escape and make your way to some secluded island with little miss piggy? Depending on what you choose, your NFT will access exclusive \$contraband, which you may choose to morph yourself with or smuggle to other Prisonerz.

## YOU ARE CHRIS. P.

You are the most notorious prisoner in the PrisonVerse. You are Chris. P! You are both hated and admired by your peers. Some say you're a hero for your contributions of \$dough to all the little pigs. Some say you're a villain for working with the Wolf El Lobo and slanging \$bacon! The truth is, you're just a swindler, because you never sold \$bacon, in fact, all you ever sold was \$turkeyBacon, and thats why you're in Prison! Counterfeit \$bacon is punishable by death, so now your clock is ticking. What's you next move Pig?

## MESSAGE FROM THE WARDEN

**Hey Pig!** The Warden welcomes you to the PrisonVerse, and he trusts that you'll behave during your stay! If not, there are consequences that await you!

The Warden wants you to consider your choices deeply, and to choose wisely as you move about the prison. And most importantly, follow the rules!

The rules are simple: 1. Obey the Warden. 2. Do not possess \$contraband. 3. Do not deal in counterfeit \$bacon, aka. \$turkeyBacon.

# GAMIFICATION

Prisoner NFT's are dynamic! They change as you play the game! Your choices equate to NFT outcomes. As you and others play the game, the rarity adjusts according to what's created and what's left behind! You may not have minted a Pig with a **mohawk**, but if you choose wisely, you can attain one! Swap out a hat, armor, nose ring, or a new skin. Start your build a pig journey and see if you can make the illest and rarest pig there is!

Users play through a story-based game, where they are confronted with situations, and given choices on how to proceed. Each choice offers a different outcome, in the form of \$contraband.

## NEW NFT!

\$Contraband is used to pimp out your NFT, or you can smuggle it to other prisonerz for \$dough.

## WHAT IS \$DOUGH?

**\$Dough** is an ERC20 token, and used to make moves in the PrisonVerse. Playing the game and leveling up your NFT requires \$dough!

## RARITY

Every NFT is unique. Starting with 9999 base layer mints, rarity stats can be acquired. As users play the game and apply \$contraband, the rarity scale for the base mints will fluctuate. Additionally, users will have a shot at winning exclusive 1-of-1 mints, by engaging in the community and by being amongst the first to finish the game. All ultra rare NFT's will be locked, and unable to morph.

# SEASONS

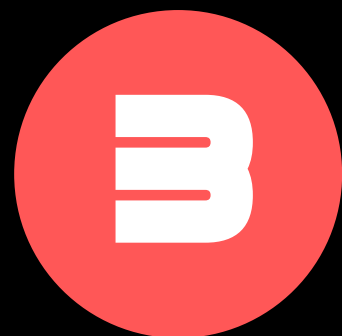

## SEASON 1: 3 Prisoner Pigz

The Drop for Season 1 will contain 9999 unique NFT's, each with their own layer genetics. A small subset ( TBD ) will be reserved for the team and giveaways. 30-50 ultra rare, custom-made NFT's will be up for grabs by NFT holders.

**Mint Date: TBD, Mint Price: TBD**

**Network: Polygon ( or other EVM Chain )**

Season 1 & 2 are ready - Pigz & Wolvez. Subsequent seasons are being worked on and will be delivered given interest.

## SEASON 1 COMPETITION

30-50 Ultra Rare 1-of-1 NFT's will be up for grabs! By being amongst the first to finish the game, and by engaging in the community, you have a chance at winning!
